GURUNATH MEHARWADE

Planning Engineer — Project Execution — Project Controls Engineer

Bangalore, India
+91-7892054617 gurumeharwade188@gmail.com

PROFESSIONAL SUMMARY

Execution and AI planning Engineer with 2+ years of experience in project execution Project Planning, Project Scheduling, Project Controls and EPC Coordination infrastructure projects. Experienced in developing Baseline Schedules, Work Breakdown Structures (WBS), Critical Path Method (CPM), Earned Value Management (SPI/CPI), Procure-ment Planning, Delay Analysis, Progress Monitoring and Client Coordination using Primavera P6 and Excel. Skilled in coordinating Engineering, execution , Procurement and Construction teams to deliver projects within planned timelines.

CORE COMPETENCIES

- Project Scheduling in Primavera P6
- Creating Work Breakdown Structures
- Identifying Critical Path Method
- Baseline Schedule Development
- Earned Value Management (SPI/CPI)
- Procurement Planning
- Delay Analysis
- Creating 2 Weeks ahead plan
- Risk Management
- Progress Monitoring along with weekly and monthly progress reports
- EPC Document Coordination
- Dashboard Reporting
- Engineering Deliverable Tracking

PROFESSIONAL EXPERIENCE

Planning And Execution Engineer - Bharti Mertiya Group pvt ltd

July2026– Present

- Developed Level-3 and Level-4 project schedules using primavera for EPC projects.
- Prepared Work Breakdown Structures (WBS) from BOQ and contract milestones.
- Developed baseline schedules and monitored schedule performance.
- Conducted Critical Path Analysis and monitored project float.
- Prepared Weekly Progress Reports (WPR), Monthly Progress Reports (MPR) and Executive Dashboards using Claude And Plexxle .
- Planned procurement activities for long-lead equipment.
- Developed recovery schedules for delayed activities.
- Performed schedule variance analysis and identified project risks.
- Coordinated with clients, consultants, vendors and site execution teams.

Project Engineer – Shriya Holdings And Properties Pvt Ltd

Mar 2025 – jun2026

- Project Planning And Scheduling Activities For Engineering Projects.
- Developed Detailed Project Schedules Using Primavera P6 For 11 Floor Luxury Residential And Commercial Towers .
- Prepared Work Breakdown Structures Aligned With Customer Milestones.
- Tracked Procurement Activities And Monitored Long-Lead Material Deliveries.
- Prepared Weekly Progress Reports And Milestone Tracking Dashboards.
- Conducted Schedule Variance Analysis And Recommended Recovery Actions.
- Maintained Engineering Deliverable Trackers And Project Documentation.
- Assisted Project Managers During Client Review Meetings.
- Supported Risk Identification And Schedule Mitigation Planning.
- Site Surveying Using Auto Level And Total Station Gained Hands-On Experience In Conducting Leveling, Setting Out, And Layout Marking For Construction Sites.
- Footing Marking And Layout Work: Using GFC Structural Drawings And Accurately Mark Foundation Locations Using Total Station And Manually .
- Prepared And Interpreted BBS For Footings , Columns, Retaining Walls Reinforcement Based On Structural Drawings.
- Skilled In Foundation Work Execution And Assisted In Footing Reinforcement, Shuttering, Concreting, Back Filling And Curing Operations.
- Checking Supervising Of Works & Materials Ensuring Compliance With Specifications.
- Review Of Reinforcement And Architect Execution Drawings.
- RA Bill Documentation And Data Optimization.
- Checking And Verifying Actual Work Done For Invoice Bill.
- Participate In Project Progress Meetings And Communicating With All Parts Planning And Undertaking Scheduled Maintenance Supervising Engineering And Technical Staff.
- Monthly And Weekly Reporting Of Work Progress And Test Reports.

Site Engineer - SN Kabade Consultant

mar 2024 – Feb 2025

- Gained Expertise In Preparing Bar Bending Schedules And Estimating Building Quantities.
- Assisted In Creating Bills Of Quantity And Measuring Completed Work Accurately.
- Managed Labor Resources Efficiently And Coordinated On-Site Tasks.
- Learned About The Implementation Of Site Inspection Layouts Marking Techniques In Construction Projects.
- Developed Strong Analytical And Project Management Skills Through Hands-On Experience.

PROJECTS

- Developed Project Schedules For High Raise Commercial And Residential Apartment EPC Projects.
- Developed WBS And Activity For A Data Center Construction Project (Self – Study Project)
- Developed WBS And Activity For A Oil And Gas Construction Project (Self – Study Project)

TECHNICAL SKILLS

Software:

Primavera P6, Microsoft Project, Plexxel, Claude AI , Auto Cad, Microsoft Excel, Powerpoint, Word

EDUCATION

Visvesvaraya Technological University, A. G. M Rural College Of Engineering, Varur, Karnataka
BE - Civil Engineering - CGPA - 7.8 2022 - 2025

Nalanda Foundation Polytechnic, Hubli, Karnataka
Diploma – Civil Engineering - Percentage – 72.2 2019 -2022

Languages : English , Hindi , Kannada.

DECLARATION :

I Hear by Declare That The Information Furnished Above Is True To The Best Of My Knowledge And I Accept Responsibility For The Accuracy Of The Information Going Forward.
